STATE NEWS

SAVED BROTHER.

HUNTINGTON—In saving the life of his brother who was in the grip of a high voltage electric wire, strung between Ninth and Tenth streets on Second avenue, Carl Spiedel, a Western Union lineman was almost shocked to death yesterday morning. Charles Spiedel, the rescued brother, carried the unconscious form of Carl to the establishment of the Wiedemann Brewery nearby.

After ten minutes of suspense, Carl showed signs of life under the administration of restoratives by Dr. E. W. Grover. The wire with which they had come in contact carried 2,300 volts and was capable of carrying almost instant death. Neither of the brothers was badly burned.

NEGRO CAPTURED.

CHARLESTON — Campbell Clark, aged 18, colored, charged with attempted criminal assault upon Miss Anna Hunt, 18, near this city last night, was arrested today by local officers and is in the Kanawha county jail. Miss Hunt was on her way home from a local store, where she is employed as a saleslady, and when she was nearing her home Clark attacked her, knocking her down and choking her. Two men living near ran to her assistance and Clark fled.

All night, posses searched the hillsides and for a time an angry crowd threatened to lynch the negro if he

were found.

To-day Clark was found in a cornfield in the edge of this city and arrested without trouble. He denied his guilt. He was identified by one of the men who ran to Miss Hunt's assistance.

SERIOUS ACCIDENT.

HUNTINGTON—Riding tandem on a motorcycle, Edward O. Flaherty, aged 28 years, well known C. & O. machinist, was possibly fatally injured, and Charles Baker line chief of the street car company, was badly bruised when the machine was ditched on Washington avenue near West Fourth street at 12 o'clock last night.

As the motorcycle sped east, it suddenly careened, and Flaherty was hurled against the curbstone, while two hundred feet further, Baker, who was driving, was tossed over the handlebars onto the soft turf, in an attempt to regain control of the machine, according to Baker's statement after the accident last night. Flaherty was knocked unconscious.

BOY DROWNED.

MARTINSBURG—Willie, the 8-year-old son of W. J. Bickett, of Philadelphia, was drowned in the Potomac river at Bull Ring rapids near Harper's Ferry Wednesday afternoon, when the canoe containing the lad and his father capsized. The elder Bickett became exhausted in trying to save his son, and would have drowned had it not been for two young men, Robert Gordon and Roy Noose, who jumped into a boat and went to his assistance.

RAN OVER CHILD.

HUNTINGTON—Mrs. F. E. Enslow,

driving a horse and buggy, ran down little Brunhilda Rucker, painfully but not seriously injuring the child and causing a severe shock to her little companion, Mabel Strother, the accident taking place at Tenth street and Fourth avenue yesterday morning.

The children were crossing the street when the rig turned out from the curb, striking the little Rucker girl, knocking her down. Without stopping to investigate the woman drove hurriedly away but was caught by Officer Whitten and brought back, although not arrested. The little girl, who is the daughter of M. A. Rucker, of Seventh avenue, was taken to the office of Dr. J. A. Guthrie where she was pronounced not seriously hurt. The little Strother girl is suffering from the nervous shock she received.

Mother Sells Girl For \$30

TWO ALLEGED BUYERS HELD IN MILWAUKEE; DAUGHTER IN NEW JERSEY.

MILWAUKEE, Wis., July 18.—Accused of buying pretty Anna Gorzo, 16 years old, from her mother for \$30 and then shipping her to Phillipsburg, N. J., Henry Herzog, 34 years old, and Paul Boy, 28 years old, were today arrested, charged with contributing to the delinquency of a minor. In district court the case was continued until July 23 and the men are being held under bonds of \$500 each.

Mrs. Margaret Gorzo, the mother, is the complainant. She asserts that the men, who bearded at her home, so poisoned her mind against her daughter that she was willing to sell the girl, who was shipped east last Sunday night. Later she was sorry she sold the girl and went to the police.

PHILIPSBURG, N. J., July 18.—Anna Gorzo, alleged by her mother to have been sold for \$30 in Milwaukee, is at the home of her god-parents, Mr. and Mrs. Joseph Meyers of Phillipsburg. The police said this afternoon she had not been detained and would not be unless the Milwaukee police gave some satisfactory reason for such action.

BEES, STAR BOARDERS OF HOTEL, ROUT GUESTS.

CHICAGO, July 18.—The management of the Monnett Hotel in Evanston, a suburb, is puzzled today over how to get rid of a swarm of bees in possession of the house. The bees entered the hotel through the room of a guest. When he attempted to fight them with a fly-swatter they scattered and made themselves at home in nearly every room in the hotel.

THE PROGRESS.

First comes the fall girl graduate So full of love and zeal, Who weaves and errors of the world Doth very keenly feel. And starts out on a great career, Disdaining selfish thought, To bring that world back to a place With bliss and uplift fraught.

So soon she is a suffragette. Devoted to the cause, With poverty and misery To drive away by laws; She scorns young girlhood's foolish joys

To list the stern demand For workers in the social ranks, And lend a helping hand.

How ends the tale? The usual way; Just in the midst of all neither interest comes along A Makes other duties pall. No longer in her pulsing brain Do social wrongs abide; And next we see her blushing bright, A lovely young June bride. —Baltimore American.

How often do you answer a "furnish-d room" ad—you who are discontented with your present quarters?

While it's a very little thing, a grain of dust in your eye is a very important thing while it's there. So it is with other little things. The loss of a tenant—even of a furnished room tenant

RIGHT ON THE JOB.

Speaking of being able to size up to an emergency a few days ago, Congressman James C. McLaughlin, of Michigan, told of a railroad official in the west who was right on the job.

During a flood, the Congressman said, which swept away several small railroad bridges and quite a stretch of track, an operator in a country town along the line saw one of the company's box cars floating down the river. Instantly he sprang to his key and reported the matter to the main office.

"Mr. James," eagerly cried the operator in the main office to a railroad chief. "V. G. reports that a box car is floating down the river at his place!"

"Is it ours?" asked the railroad chief, still looking over the pile of papers before him. "He says it is," answered the main office operator, after another spasm of telegraphy "and wants to know what to do."

"All right," smiled the railroad man. "Just tell him to swim out to it and set the brakes."—Exchange.

JUST CONVERSATION.

That women can smile, scrap, kiss and throw the harpoon into each other at the same time was demonstrated by a story told at a recent banquet by Senator William S. Kenyon, of Iowa.

Some time ago, the Senator said, a woman called on a female acquaintance whom she had not seen for several years. Fond embrace, kisses and all that sort of thing, and then the clip began.

"Just think, Mary," observed the hostess an hour later, "it has been nearly ten years since we last met!" "Yes, dearie," responded the caller, with a pointed glance at the other. "Ten long years! But you don't show your age one bit."

"Do you really think so, Mary?" was the delighted rejoinder of the hostess.

"I know it, dear," was the positive rejoinder of Mary. "When you went to the kitchen a few minutes ago I noticed that you had torn it out of the family Bible."—Philadelphia Telegraph.

CALL OF THE WILD.

Senator Earle Chamberlain, of Oregon, smiled a few nights ago, when the topic being talked turned to vacation time. He explained that he was reminded of a recent conversation in a popular cafe.

It was during the lunch hour, the Senator said, and four genial business men were sitting at a table. Outside the air was soft and balmy, and everything in nature was a sweet allure-ment to buy a railroad ticket and beat it for the woods.

"It is in my system," remarked one of the party, reflectively glancing through the open window. "There is nothing so appealing as the call of the wild."

"It may strike you that way, old fellow," responded another, with a faint smile. "But right here I beg the privilege of casting a dissenting vote."

"You don't know what you are talking about Jim," emphatically declared the first. "Did you ever hear the call of the wild?"

"Yes," replied Jim, with something akin to a sigh, "from the head of the stairs the other night, when I didn't get home till 2 o'clock in the morning."—Philadelphia Telegraph.

LOOP PARK.

The new bill at Loop Park Theatre last night attracted a good sized audience despite the threatening weather. The patrons thoroughly enjoyed the excellent performance.

Two clever vaudiville acts were given and two of the best motion pictures obtainable. Tonight the same bill will be repeated and with good weather a regular Loop Park crowd will be on hand.

WOMAN'S CLUB INVESTIGATES

CIVIC DEPARTMENT MAKES INSPECTION OF SANITARY CONDITIONS IN CITY.

MANY PLACES FOUND WHERE THE ATTENTION OF HEALTH OFFICERS IS NECESSARY.

The committee from the Civic Department of the Woman's Club made an investigation into sanitary conditions throughout the city yesterday and found several places in the city which demand attention from the property owners as well as the city health officer. Many places along Parks avenue were found in a bad condition and the bridge connecting the Third and Fourth wards needs a cleansing also. Many people are allowing garbage to collect about their premises which is endangering the lives of not only themselves but the public in general. This is the time a year when disease breeds readily and these conditions should not be allowed to exist.

The city health officer, Mr. Schultz, states that he will be at the mayor's office every morning at 8:30 o'clock when he can be communicated with in regard to these conditions and any one reporting to him, will receive attention.

B. & N. Is Now Free To Build Line

WITH B. & O. ELIMINATED FROM DIRECTORATE PROSPECTS FOR IMMEDIATE CONSTRUCTION ARE GOOD.

EXTENSION OF LINE TO BELINGTON WILL GIVE B. & N. TWO EASTERN OUTLETS.

Now that the transfer of the stock held by the Pennsylvania and the Baltimore and Ohio Railroad Companies in the Buckhannon and Northern Company has been made it is expected that the Buckhannon and Northern will soon get busy with the proposition of building its line into the First ward.

With the Pennsylvania and Baltimore and Ohio Companies in the entrance of the Buckhannon into Fairmont except over the tracks of the Baltimore and Ohio. These companies would never consent to the erection of a bridge across the river at Catawba but with these companies eliminated from the Buckhannon no longer controlling its policies or dominating its financial projects there is no reason patent why the Buckhannon and Northern should not soon be operating trains into Fairmont through the First ward.

It is also likely that the connecting link to Belington will also be one of the results following the elimination of the Pennsylvania and Baltimore and Ohio. With this connecting link built and in operation the Buckhannon and Northern would have two eastern outlets for the immense tonnage that would come to it by the development of this part of West Virginia.

Women Do Light Voting

THOSE LOUDEST IN DEMAND FOR BALLOT FAIL TO VOTE IN ILLINOIS.

CHICAGO, July 18.—In three local elections throughout Illinois since the passage of the woman suffrage bill less than 10 per cent. of the women have taken advantage of their right to go to ballot. Lack of interest in local conditions is attributed as the cause by the suffrage leaders. It is declared, however, that when the women see the advantage to be gained by voting the returns will show a larger percentage of women voters.

In the most recent election, in Geneva, Ill., where the women had advocated the establishment of a kindergarten in the town, there were only 180 out of 600 clubwomen who went to the polls, and the kindergarten measure was defeated.

It was said that women who had been loudest in their demands for the right to vote were the ones when the time came who failed to appear. All manner of excuses were offered by the scores of women who were urged to go to the polls. Some believed that the polling places would be visited by women in tea gowns and refused to go even when they were called for by automobiles. This has been the attitude of the women in all of the elections that have been held since the passage of the suffrage bill.

J. S. POPLER, Department Store First Ward

Senate

(Continued from Page One.)

from income tax from 4,000 as in the House bill to \$3,000 for unmarried persons and the consequent rearrangements of this (the report comments upon as follows: "Your committee reduces the amount of exemption of net income to \$3,000 and allows on account of marriages an additional exemption of \$1,000 to either the husband or wife where they are living together but not to both. In the case of a minor child or children living with and dependent upon the parents such parent is allowed an additional exemption of \$500 for one minor child and up to \$1,000 on account of minor children except where both parents are taxable in which case no exemption is allowed on account of children. By the amendment the lowest possible exemption to any person would be \$3,000 and the highest possible to any one \$5,000."

Concerning the general revision the Senate committee says that following the lead of the House it has "thought in the amendment it proposes to the House bill to further carry out and protect the theory of establishing a revenue producing tariff upon the basis of competitive rates as a just and fair interpretation in the light of conditions of the latest authoritative utterances of the party in power upon that subject and now submits the results of its labors with the confident belief that the enactment into law of the House bill as amended will result in a more equitable distribution of the burden and incidental benefit of our system of custom taxation. That it will tend to disintegrate the monopolies built up under the present system. That it will enlarge opportunity through individual efforts, reduce the cost of living and relieve the people from the burden of the protective system strikingly exemplified in the so-called Payne-Aldrich bill which this measure is intended to supersede."

TOOTH ENAMEL IN EYE

CHICAGO, July 18.—A speck of en-

amel chipel from a patient's tooth by a dentist's drill flew into the eye of Dr. Leroy Kerr, a few days ago, and yesterday he was advised to have the optic removed to save his life. Diphtheria germs were carried on the speck into the eye.

RAILROAD ENGINEER, 102 YEARS OLD, GETS MEDAL.

BORDENTOWN, N. J., July 18.—George W. Scott, 102 years old and the oldest living locomotive engineer of the Camden and Amboy Railroad Company, is today the proud possessor of a medal presented by the members of Roebling Council No. 72, Locomotive Engineers of Trenton. He has been a member of that order for forty years. The medal bears a portrait of old "John Bull No. 1," the first locomotive to run on the road of the company, and of which Scott was engineer. The engine is now on exhibition in the Smithsonian Institution at Washington.

NEW PACING RECORD BY WALTER COCHATO.

PITTSBURGH, July 18.—Coming from behind on the stretch in a grandstand finish, Walter Cochato, owned by William Maple, of Converse, Ind., lowered his own record by three-quarters of a second when he finished the second and final heat of the Iron City 2:05 class pacing event in 2:04. In both heats Maple's horse made a gallant finish after laying back until he reached the three-quarter post.

In the second race, 2:24 class, trotting, Uncle Biff, Pastime Stable, had little trouble winning. He was in the lead from the start until the finish and was never in danger. His best time was 2:10½ in the second heat.
